

EXPLORE

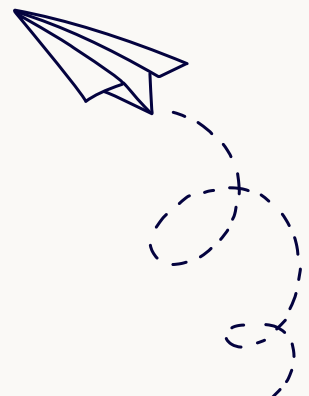

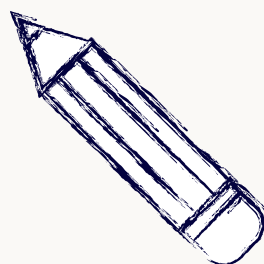

EXPLORE is a structured, institution-led virtual internship program designed for high school students seeking exposure to leading industries, professions, and applied problem-solving.

What is Explore?

Explore program is carefully crafted in collaboration with our partners; it provides sectoral exposure and the chance to engage in focused project-based work with leading industry professionals.

The program emphasises experiential learning and pragmatic practice, enabling students to engage with real-world contexts and translate ideas into structured outputs.

Participants have the choice to pick amongst diverse offerings, and work with practitioner organisations on industry-aligned problem statements to produce portfolio-ready work – building a credible academic profile through demonstrated performance.

Our internship model functions via structured, value-oriented frameworks, offering students key pathways to crafting an effective profile-building portfolio.

What Sets Us Apart

Operating across three main pillars, EXPLORE is designed to provide students with an impactful research internship experience.

Sector Access

Exposure to high-value sectors, enabling students to understand how work is structured across different domains, functions, and departments.

Experiential Learning

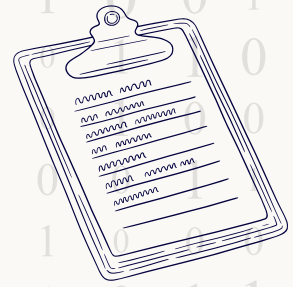

Access to project-based work grounded in reflective as well as practical frameworks, allowing explorers to engage with tasks in sync with on-ground sector roles.

Capstone Report

Assistance with a final capstone report, curated to highlight the student's academic learnings, guided by industry experts and refined through staged feedback.

Explore Offerings

Explore is a structured, industry-aligned internship program that places students within real-world business contexts. Students are matched to a defined domain and function, where they engage with focused, practitioner-relevant problems situated in a relevant departmental setting. Guided by mentors and structured frameworks, students learn how professional work is scoped, structured, and delivered – producing concise, framework-aligned outputs that reflect genuine industry workflows.

Where Discover builds academic research capability, Explore builds applied, functional, and commercial fluency.

Over 20 Sectoral Functional Lenses Covered

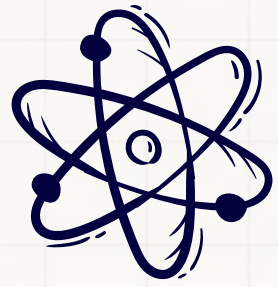

Lifecycle of an Explore Engagement

- Get placed within a defined domain and function
- Receive a scoped problem situated in a real departmental context
- Understand how professional tasks are structured and prioritised
- Apply a defined functional lens to the problem
- Develop a structured, framework-aligned deliverable
- Receive guided feedback and refinement at each stage
- Learn to present and communicate your work
- Walk away with a portfolio-ready output

Please find enclosed the Explore offerings, with specific differentiating outcomes noted.

Program	Duration	Cost	Outcome
EXPLORE Sprint	1 Week	<i>Get in Touch</i>	Framework-aligned report, LOR
EXPLORE Flagship	2 Weeks	<i>Get in Touch</i>	Applied analysis, structured report, presentation/feedback, LOR
EXPLORE Partner-Led	Custom	<i>Get in Touch</i>	Co-designed with partner organisation

Explore Sprint

A short, structured introduction to industry-aligned work.

Over 2–3 guided sessions, students are placed within a defined domain and function and engage with a focused problem situated in a relevant departmental context.

The emphasis is on understanding how tasks are structured and producing a concise, guided deliverable.

What you get:

- Structured exposure, concise and guided output
- Framework-aligned report (deliverable)
- Letter of Recommendation*

Duration: 1 Week

*contingent on successful completion of the program.

Explore Flagship

A focused internship combining conceptual grounding with applied project work. Over 4–6 sessions, students work within a selected domain, applying a defined functional lens to a problem situated in a specific departmental context.

The program supports the structured development of a complete deliverable, with guided feedback and refinement.

What you get:

- Applied analysis
- Structured report with defined framework (deliverable)
- Presentation/feedback
- Letter of Recommendation*

Duration: 2 Weeks

*contingent on successful completion of the program.

Explore Partner-Led

A fully customised, partner-led engagement designed in collaboration with a host organisation. Students are embedded in a live business challenge defined by the partner, working under joint mentorship from Essai and the partner organisation.

Scope, duration, functional lens, and deliverables are co-designed to align with the partner's real-world priorities, giving students authentic industry exposure and a tangible contribution to a working team.

Program Scope: Custom domain, function, and departmental context defined jointly with the partner.

The program supports a live, organisation-relevant deliverable with structured mentorship, feedback, and refinement throughout.

What you get:

- Live, partner-defined industry deliverable
- Direct exposure to a working organisation and team
- Applied analysis with structured feedback
- Presentation to partner stakeholders
- Letter of Recommendation*

Duration: Custom

*contingent on successful completion of the program.

How do I sign up?

Contact your Account Manager at Essai, the Head of Explore, or your Program Manager, or fill out the online form. Essai staff will match you with a relevant domain, function, and mentor.

An invoice and service agreement will be generated upon confirmation of acceptance. After completion of payment, the program will begin.
